Customer Service

We have always been driven by the need to judge our performance by placing customers and market integrity at the heart of our business. That is why we aim to deliver access to justice through as many channels as possible. We recognise that this will only be possible by ensuring that we provide excellent products and a first-rate service to our clients.

Our approach is underpinned by the acceptance that Treating Customers Fairly is essential in all we do. We support the FCA stance in this area and strive at all times to meet or exceed our clients' expectations.

Accreditation

We believe that protecting information is critical for the successful management and smooth operation of an organisation and are fully accredited for ISO27001:2013 (Information Security Management System) by URS, "a UKAS approved certification body".

This standard is of particular importance in the financial services sector where the protection of information is vital and where high standards have not always consistently been achieved.

MGAA Membership

ARAG is a member of the Managing General Agents' Association (MGAA). The MGAA is a non-profit making organisation that represents UK managing general agents.

The MGAA was formed to give the insurance industry a better understanding of what an MGAA is and what they contribute to the insurance market. It is a central body that can put members' views to government departments and agencies including the FCA and Parliament. It also represents members' interests in discussions over legislation and regulation which may impact them. In addition it sets best practice guidelines and

works actively to improve the Underwriting Agency sector's professionalism, stability and competitiveness.
