

Case Study - *Employment advice*

Farmer wanted to employ his first employee on his farm.

Terry runs a livestock farm and needed help with some of the daily tasks on the farm.

He decided to employ a part-time worker but as he had not employed anyone before, he was unsure of the process. He turned to **his Legal Expenses Insurance provided by ARAG** and spoke to a legal adviser.

The legal adviser pointed Terry to the **online resource ARAG Businesslaw** (which is included as part of his Legal Expenses Insurance). He was able to get information about employing staff, information on advertising for staff and a contract of employment template.

Terry contacted us and left feedback to say that the resource was extremely useful and that he was now confident that he had enough information to start the employment process.

Legal Advice Helpline

If you need advice with any employment matter our experienced telephone advisers can provide practical advice, suggest next steps, **24 hours a day, 365 days a year.**

Online Legal Documents & Guides
